# LVL MEDICAL GROUP

## 16.2% growth of half year turnover

During the first half year of the 2007 financial year, LVL Médical registered a consolidated turnover of €46.1m versus €39.7m in the first half of the previous financial year. This represents an increase of 16.2% compared to the turnover of the first half of the 2006 financial year (39.7%).

- ❑ **In France**, the first half turnover reaches €34.4m versus €31.2m in the first half of the previous financial year, out of which more than 98% in the Group's strategic activities which are home respiratory care, infusion, nutrition and insulin therapy. This turnover shows a rise of 10.1%.
- ❑ **In Germany**, the nursing and home care structures register a turnover of €11.7m in the first half versus €8.4m in the same period last financial year.

In France, the increase in the number of patients taken in charge is above 2,600 in the first half compared to 2,200 over the whole of the last financial year. This growth lets us anticipate a second half above our forecasts.

Further information of the Group's outlooks will be conveyed for the first half results publication scheduled on June 28<sup>th</sup>, 2006.
